

HSEC
SERVICES

Supporting Industry Since 1999

What's in it for the attendees?

- Better understanding of the critically acclaimed Care Factor Program
- Be in the driving seat - As leaders, get upto speed with the latest global best practices to engage and motivate your workforce
- Positive Safe-Work Culture - Gain momentum for your efforts to transition to an enhanced safe-work culture

What is involved?

- Keynote Address
- The Care Factor - HSEC Services Alliance
- Engaging the leaders - "Helping leaders to create a culture where safety can thrive - the Care Factor Program"
- Q&A session

Who should attend?

- Senior Management Executives
- Project and HSE/Loss Prevention Management
- Operational Excellence Managers
- Key leaders looking to drive positive safe-work culture within their organisation

What is the Care Factor™ Program?

The Care Factor program provides "Conscious Safety" skills designed to give participants greater control over their own cognitions to become safer through improved thinking processes, resilience and responsibility-taking, and improve safety performance by creating a caring and intervention-based culture on site.

Moreover, leaders will become well versed in "Authentic Leadership", the model viewed by current research as the most effective way for leaders and supervisors to create trust. More details on www.gystconsulting.com.au

About HSEC Services
